Providing Patient Comfort
Preventing injury to caregivers
Improving Nurse/Caregivers' working environment

Winner Ultimate

Medical Technology does not always have to be about complex devices - Winner SG's latest product simply involves reinventing the wheel. The company prides itself on its commitment to innovations, high quality products at affordable prices. Emphasis on customer service is the key to the company's success.

TRANSFER WHEELCHAIR

Transfer activities are done daily by wheelchair users, caregivers, therapists and nursing staff. Getting in and out of bed can be a daunting task.

To make transfer easier for wheelchair users, researchers at Nanyang Polytechnic Singapore developed a wheelchair with a retractable wheel. The wheelchair with the rear wheel retracted provides wide unobstructed seat that facilitates easier positioning of the transfer board and increased stability during transfer. **The Winner Transfer Wheelchair** comes fitted with a left or right retractable wheel or both Left and Right.

Aluminium frame with flip away armrests, swingaway detachable footrests and flip down back. Available in 16", 18" or 20" seat widths.

Winner Ultimate 88

TRANSFER DEVICES

**#6000
Slide Sheet**
145 x 70cm

Used together over the Transfer Board to reduce friction and minimise resistance.

**#6100
Flexi Transfer Board**
73 x 32 cm

(Made in Germany)

The flexible board has a very smooth surface to minimise resistance and easily removed after transfer. The anti-slip strips at the bottom prevent the board from slipping away on the surface.

#1100 Beasy Trans
102cm x 30.5cm (40" x 12")
Excellent for use with Winner Transfer Wheelchair for transfer to automobile

#1200 Beasy II
70cm x 30.5cm (27.5" x 12")
Ideal for small areas such as bathroom transfers.
